

Designing an Order of Service

What to include if you have one.

You don't have to have a printed Order of Service!

Many couples decide to use the church's hymn books and, if you want to do that, that's okay with us. However some couples like to have a booklet containing the words of the hymns, details of other music and the bible reading. The cover can have a photo or other design in addition to your names and the date of your special day.

You can make your own Order of Service or have one professionally produced by a company specialising in wedding stationery. In either case here are the headings, and structure of the service, that you can follow. If you are having three hymns (or just one) contact your Minister for advice as to where it goes.
